QUOTE

Permodalan Nasional Berhad (PNB) welcomes and appreciates the advice and guidance by the YAB Prime Minister regarding the review of PNB's strategic investment options in Prolintas.

The YAB Prime Minister's guiding principles will be adhered to as PNB finalises and concludes the strategic options review exercise. The guidance is also consistent with PNB's investment framework, which prioritises the interests of unitholders, the rakyat, as well as the national and Bumiputera agendas, when evaluating investment in strategic assets, in line with our given mandate.

PNB is committed to not choosing the option of asset divestment if it jeopardises the long-term benefits of unitholders or negatively impacts PNB's efforts to contribute to the well-being of the rakyat and country's development.
