QUOTE

Permodalan Nasional Berhad (PNB) welcomes the Budget 2027 by Yang Amat Berhormat Dato' Seri Anwar bin Ibrahim, Prime Minister and Minister of Finance, which underscores the Government's continued focus on strengthening Malaysia's long-term economic resilience, promoting sustainable growth and creating opportunities that benefit the rakyat.

PNB is appreciative of the Government's announcement to endow 50 acres of prime commercial land in Kuala Lumpur to Yayasan Pelaburan Bumiputra (YPB), with the endowment to be managed by PNB. This marks the first new endowment for PNB since its formative years in the early 1980s, reinforcing PNB's founding mandate to enhance Bumiputera wealth and participation through long-term value creation.

The new endowment reflects a long-term commitment to preserving strategic Bumiputera ownership, unlocking sustainable economic value from national assets, and ensuring the benefits generated can continue to grow and serve future generations. PNB will optimise the economic potential of this endowment by preserving the underlying capital and reinvesting it to support future growth, while distributing profits generated for the benefit of its unitholders.

PNB appreciates the Government's recognition of its role in preserving Stadium Merdeka and Stadium Negara, as well as the announcement of an entertainment duty exemption for arts, cultural, entertainment and sporting activities held at both venues. This initiative will encourage greater public participation and utilisation of these historic landmarks, while supporting ongoing efforts to revitalise and preserve Malaysia's national heritage at Merdeka 118 Precinct.

Further details will be shared progressively in the near future.

Thank you.
